CONSTRUCTION UNDERWAY FOR CANOBIE LAKE PARK'S NEW "UNTAMED" COASTER

While most of us were still gearing up for the holidays, Canobie Lake Park was already busy laying the groundwork for a new roller coaster for the Park's 2011 season. The ride, a Compact Euro-Fighter manufactured by Gerstlauer Amusement Rides in Germany, has been dubbed "UNTAMED" and will be the only one of its kind in New England and the fourth in the United States.

With grizzly-bear-themed cars holding eight riders each and support columns designed to look like birch trees, the coaster features an initial climb of 75 feet straight up and a first drop that is "beyond vertical," curving in at 97 degrees. Riders will also experience a series of banked curves, loops, twists, turns and zero-gravity rolls.

The coaster area will feature a station and shop utilizing rustic log construction and will be designed in an Adirondack/forest style throughout. Canobie Lake Park will be releasing regular construction progress photos in the weeks and months to come. For more information about Canobie Lake Park, visit the Park's website at www.canobie.com.

NEW WILD MOUSE COASTER AT SFNE

Six Flag New England's new wild mouse will be its 10th roller coaster! "Gotham City Gauntlet Escape from Arkham Asylum" will reside in the DC Super Hero Adventures section of the park and make its debut in spring of 2011.

Adventure seeking guests can tap into their villainous side as they attempt to escape from Arkham Asylum; home of Gotham City's criminally insane. The ride experience begins when guests board the four person coaster cars and start a five-story climb towards the sky. Once riders reach the top of the lift hill their world is sent spinning and twirling through a maze of 17 hairpin turns, winding twists and turns and unexpected dips. Careening along 1,213 feet of track, this all new coaster adventure will delight thrill seekers of every age.
